Subject: HBRK SERVER

Hey Guys,

For some reason the jeevacation1@me.com idisk password has been reset and we do not have access to it, this is how [REDACTED] Gets her documents at this time.

In the process of trying to resolve this service request I logged into the HBRK server and discovered.

One of the firewire drives is not mounted and this needs to be looked at ASAP.

I can come by thurs @ 11am if thats ok ?

I would be there to continue to try to help [REDACTED] and get the server back on line, Please let me know.

Thank you

Scott Denett
