Subject: 3 Helicopter frost accidents in PBI

Jeffrey,
there were 3 helicopter accidents Tuesday night in West Palm Beach, while doing frost patrol due to freezing weather over the crops,
one Robinson piston helicopter R44, while getting re-fueled put his tail rotor into a fence. this happened around midnight.
the other two happened at sunrise, both pilots fell asleep and flew into the ground, one Bell Long Ranger and the other was a R44,. all pilot error,.according to Darren,.
Darren was not involved, he is currently doing Gulfstream G550 school in Savannah,.
Darren is thinking of quitting his job at the Charter company flying G IV's, making himself more available to contract flying,.
Jerry Reed sent Darren to G550 school, he just purchased a new Bell 407, (he is a car dealership owner, also has residence in Santa Fe, Palm Bch, NY etc,.), his G550 pilots are not helicopter rated,.so Darren will help out in Heli and G550 when needed.
just FYI info,
thanks,
Larry
