Subject: Re: "Plant Lady"

Good Morning,

Regarding The Plants of Rossana Vaccarino:

I have been following up with Rossana periodically since we visited her nursery, and Monday I called and emailed until I got a response since "Two Weeks" had passed. She responded by email yesterday, and I just spoke with her this morning.

Basically she still has no Grand Total price for everything.

She told me:

"All shipping have been delayed of 2 weeks because we needed to get a permit from Fish and Wildlife to export our native plants besides the normal Phyto. We have another shipment next week and another in early-mid june. The ones for St. Croix have not been established but I should know in a couple of weeks. It will be a lot easier for me to see what is left in two-three weeks, so I kindly ask you to wait until mid June. That would be perfect for us if possible. I am sorry but schedule is not in my hands alone."

Thank you
Rossana"

I spoke to her about Grasses as well and she had only one Native Grass : Uliova Verigata aka Crab Grass
Which she propagated from Seed collected in St. John and sold ALL to a client in Virgin Gorda

She agreed that The "Sahara" Variety Bermuda grass is best for Hydro-seeding in this environment.

Emad and I have been collaborating to get an order for New Wild Seed and More Sahara Bermuda Grass as well as grass fertilizer for the hydro-seeder.

That Order will be completed today.

Thank You,

Igala
