Dear Sirs

Our client: Novas Scarman Group
Publication of An Extract from the Report of the Statutory Inquiry into the Novas Scarman Group ("the Report") on your website at Wikileaks.org

- 1 We write further to our letter dated 6 July 2009.
- 2 As you are aware, we are instructed by our client in relation to the publication on your website of a report ("the Report") and summary report ("the Summary") produced by the firm BDO Stoy Hayward in the context of a UK statutory inquiry involving our client (the "Inquiry") by the Tenant Services Authority (the "TSA")
- 3 The TSA, having now completed the Inquiry, has decided that the Report should not be published for a number of reasons, including the fact that the Inquiry only relied on a limited number of the facts referred to in the Report, and that comments in the Report relating to individuals (including the Directors of our client) were clearly prejudicial.
4. The TSA concluded that the Report disclosed insufficient evidence to support a finding of misconduct in relation to any individual.
5. Our client has therefore instructed us to write to you again to request the immediate removal from your website of the Report and the Summary which are not only inaccurate but wholly misleading and damaging to those individuals involved, and which the TSA has determined should not have been released into the public domain.
6. We have advised our client that it has a cause of action against all publishers of the Report (including the uploader, the host site and the domain host), as detailed in our previous letter.
