The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

The original copy was borrowed from, and filmed with, the kind consent of the following institution:

National Library of Canada

Maps or plates too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

L'exemplaire filmé fut reproduit grâce à la générosité de l'établissement prêteur suivant :

Bibliothèque nationale du Canada

Les cartes ou les planches trop grandes pour être reproduites en un seul cliché sont filmées à partir de l'angle supérieure gauche, de gauche à droite et de haut en bas, en prenant le nombre d'images nécessaire. Le diagramme suivant illustre la méthode :

## PREFACE.

---

THE Ritual adopted by the Modern Order of Eopts is so long that it can only be learned and retained by constant attendance at the meetings, and as many are so situated that they cannot attend regularly, they soon forget much that they have learned, and thus lose interest in the subject, until their connection with the Order becomes merely nominal, or is entirely severed in default of the payment of dues.

From this state of things arise the need and demand for some means of refreshing and aiding the memory, outside of the Λ, and for the want of an authentic work on the subject. Eopts are availing themselves of any

means of information that comes within their reach ; hence the extensive sale of open and highly erroneous exposes, that are sold alike to members of the Order and the *public at large*. To arrest this evil, and meet the demand for a work of this nature that is both accurate and legitimate, this volume has been prepared.
