Astral Sex

What Is Astral Sex?

Many people wonder if there is sex on the Astral realms. The answer is yes; there **IS** sex in the Astral realms, but it hardly resembles sex on earth.

Just as on the physical plane, people experience sex in different ways in the Astral too. Some experience it as a joyous exchange of energy, while others say that it is just like physical sex, but a much more intense, ecstatic and intimate experience.

But actually, Astral Sex cannot be compared to physical sex simply because physical bodies are not involved in it.

What is Astral Sex Like?

Have you ever experienced an open sharing of thoughts and emotions with someone close to you? You almost feel empathetic and therefore united with the other in a special way. Astral Sex is just that - an intermingling of emotional energy, but at a very enhanced level.

In Astral Sex, emotional interaction takes place at a really deep level. Relationships take on a newer meaning. In a sense, two souls truly become one in the Astral plane.

Types Of Astral Sex

Astral Sex Without Body Contact

Astral Sex without body contact is a very intense sexual experience. This is because of the involvement of the primary Chakras, especially the base and the genital Chakras

Two willing people can be several meters apart from each other. A powerful exchange of male

and female energies takes place between the Astral bodies of both projectors, irrespective of their genders.

If you are involved with this kind of sex, you will feel an expansion of your Throat Chakra, which will fill your entire Astral body with a sexual tingling. You must now stand in front of your partner such that your throat Chakra is in line with his/hers.

An almost indescribable exchange of energy will take place, after which you will both be flooded with white light. Light will enter your Chakras, which will expand to receive more and more light energy.

Energy blocks will instantly be eliminated and your entire energy body will be purified. A lot of Kundalini energy, which is generated at your base Chakra, will gush upward and emerge like a fountain at your crown Chakra.

You and your partner must now move closer, but still not touch each other. The energy emanating from your crown Chakras will now engulf you and your partner. You will never experience this ecstasy in any part of the physical plane.

You and your partner can now move apart. The energy level of your body will slowly come down to normal, after which you can go back to your physical body.

Astral Sex With Body Contact

Two willing projectors can have an imitation of physical sex in the Astral world – by getting their bodies in contact with each other.

The genital Chakras are very sensitive in the Astral world; and this genital sensitivity coupled with the naturally sensitive atmosphere of the Astral world causes an orgasm that is several times more intense than what can be experienced on earth.

There is nothing like this in the physical world. The projectors are so aware of the powerful sexual sensations in their genital centers that they almost identify with their genitalia.

Astral Sex

In a way, their entire body becomes their genitalia and they feel as if they are interacting with another genital center.

This type of intense sex usually results in an explosive orgasm that can put an end to the Astral projection experience and jolt to wakefulness the physical bodies of the two projectors.

Just as on earth, different variations of sex are possible in the Astral world too. You are limited only by your imagination

Sexual partners in the Astral

Astral Sex can be had with real as well as imaginary beings.

However, the experience of having sex with an imaginary being is much duller. An orgasm is almost impossible to achieve. Imaginary characters will hardly respond; they will simply allow you to do to them whatever you please.

Real Astral beings, conscious projectors or even unconscious dreamers, are much more responsive. They might object, submit, fight, or even attack other projectors who make sexual advances. They might even just leave the place.

Avoiding Unwanted Sexual Encounters

Astral Sex happens so fast that you will know that it has happened only when it has occurred.

So in order to avoid unwanted Astral Sex, you need to be fully aware of what is happening and act quickly.

The moment you meet a projector who is looking for a sexual encounter or even if you come across stray sexual thoughts, desires, and fantasies in the Astral environment, you have to move away.

Astral Sex

When you travel in the crowded areas of the lower Astral realms, which are usually full of unconscious dreamers roaming about, you will find yourself inevitably moving through the Astral bodies of others. If you are not careful, this can easily trigger sex desires!

If you wish to avoid it, you must keep your cool, stay alert and aware, and move away as quickly as possible.

Is Astral Sex dangerous?

No, Astral sex is not dangerous. In fact, it is the safest sex you can find.

You don't need to worry about sexually transmitted diseases. Sexual encounters in the Astral, accidental or unwanted, do not leave you emotionally and psychologically scarred as they do in the physical world.

However, you do have to worry about prematurely terminated out-of-body experiences and lowered vibration rates.

Forced Astral Sex

If you are a serious Astral projector, you will never force any Astral being or another Astral projector to have sex with you.

If you do, it usually results in lowered energy and a lowered rate of vibration, which pushes you into the lower Astral realms - a place you would want to be in! You will meet with a lot of negative entities that might shock you and rudely awaken you in your physical body.

Astral Sex As A Tool To Enhance Earthly Relationships

Astral Sex can be used a tool to enhance one's relationship with one's significant other on earth. Most earthly love relationships are so caught up with the physical aspect of the relationship that they forget the tender emotional aspect of it.

If you are caught up in such a relationship, you can strengthen it by using Astral Sex. You simply need to have the desire to connect with your significant other in special manner.

A Word Of Warning

After Astral Sex, you will wake up feeling refreshed and completely energized.

But you must avoid getting obsessed with Astral Sex. You have your earthy duties to perform and responsibilities to shoulder. If you get obsessed with it, you might find yourself battling a number of unwanted problems in the physical plane.
