

The Philosophers' Stone was sought as a wonderful medicine that had the power to repair the human body thereby increasing human life almost indefinitely. The Bible itself had declared that Melchizedek the King of Salem, who first possessed the Philosophers' Stone, would live forever...

Here is a key. Perhaps you will use it to open a new door. Beware! Once through the door you will find the pursuit of Wisdom demands either your full-time attention or none at all. If you become a philosopher, your friends may think you have become a little mad. Indeed, what would be made of you? Glassy-eyed, preoccupied, strange friends, muttering about ancient history, the Good and the Righteous, and chemistry. Things most people simply don't think about.

Those who have preceded you for at least five thousand years would smile: 'How you come to terms with this is no concern of ours. We don't even know if you are serious.'
