

Dream Job Spell

This is a general spell that works for all employment-seeking situations. However, it is especially effective for obtaining a particular job you have always wanted or for gaining an opening in a new field that interests you. The spell is a slightly more complex version, and will take (3) days to complete.

You will need: An advertisement for a news paper job you would like, or a paper and pen to write your own wanted job position. (3) deep blue candles with holders (any type of candles will do just fine, votives are the best, less fire hazard). Last a **fire safe** metal tray large enough to hold all (3) candles plus a little extra space.

Timing: If possible, (3) consecutive nights during the waxing moon.

Best Time: is the two nights leading up to the full moon and the night of the full moon itself when a witch's powers are at their highest.

The Spell

- **Day (1)**
- Set all (3) candles, in the holders, in a row on the tray (left to right).
- Light the left (#1) candle only.
- Read aloud the news paper job advertisement (and/or) your own written job position paper aloud by the light of the candle.
- Say the spell aloud.
- Then, place the paper on the tray in front of the left (#1) lit candle.
- Let the candle burn for a few minutes visualizing you getting the job. Then snuff out the candle leaving the news paper job advertisement (and/or) your own written job position paper under the (#1) candle.

*I ask for this job;
this job is for me.
Bring it closer,
so I may receive it
I ask for this job;
this job is mine.
As I Will It,
So Shall It Be Done.*

- **Day (2)** light the left (#1) and the center (#2) candles only.
- Read aloud the news paper job advertisement (and/or) your own written job position paper aloud by the light of the candles.
- Place the job description in front of the middle (#2) candle.
- Say the spell aloud.
- Let the candles burn for a few minutes visualizing you getting the job. Then snuff out the candles leaving the news paper job advertisement (and/or) your own written job position paper under the (#2) candle.
- **Day (3)** light all (3) candles, first the left (#1), then the middle (#2) and finally (#3) the last candle.
- Read aloud the news paper job advertisement (and/or) your own written job position paper aloud by the light of the candle.
- Say the spell aloud.
- Let the candles burn for a few minutes visualizing you getting the job.
- Next roll the news paper job advertisement (and/or) your own written job position paper into a taper shape and hold it briefly in all (3) flames in turn so that the paper just catches alight moving from left to right and **being careful not to burn yourself**.
- Drop the paper on the tray, and let it burn itself out.
- When its burnt, (cool to the touch), crush the ashes and scatter them to the wind **Repeating the spell**.
- Leave the candles to burn themselves out.
