

THIS IS THE US MASTER PILOT SCABLIST THE UNIONIST'S EDITION

A **SCAB** is A Person Who is Doing What You'd be Doing if You Weren't on Strike.

A **SCAB** takes your job, a Job he could not get under normal circumstances. He can only advance himself by taking advantage of labor disputes and walking over the backs of workers trying to maintain decent wages and working conditions. He helps management to destroy his and your profession, often ending up under conditions he/she wouldn't even have scabbed for. No matter. A **SCAB** doesn't think long term, nor does he think of anything other than himself. His smile shows fangs that drip with your blood, for he willingly destroys families, lives, careers, opportunities and professions at the drop of a hat. He takes from a striker what he knows he could never earn by his own merit: a decent Job. He steals that which others earned at the bargaining table through blood, sweat and tears, and throws it away in an instant - ruining lives, jobs and careers.

ONCE A SCAB, ALWAYS A SCAB - NEVER FORGET!

Below are brief notes about legal strikes by organized pilots.

1. **Century Airlines 1932:** Pilots struck to resist wage reduction by E.L. Cord, the patron saint of Frank Lorenzo.
2. **TWA 1946:** Pilots struck over pay on faster 4 engine aircraft, limited by the provisions of Decision 83.
3. **National Airlines 1948:** Strike over aircraft safety and repeated violations of the labor contract.
4. **Western Airlines 1958:** Qualifications of the Flight Engineer.
5. **Southern Airways 1960:** Strike over wage rates at regional carrier vs. larger airline.
6. **Rio Airways 1976:** Pilots represented by the Union of Professional Airmen, an ALPA affiliate, struck over issues of seniority, pay, safety and system board neutrality after failing to negotiate first contract.
7. **Wien Air Alaska 1977:** Crew complement on B-737.
8. **Continental Airlines 1983:** Struck to resist Frank Lorenzo's use of Bankruptcy Law to abrogate labor contracts.
9. **Pan American 1985:** Pilots MEC elected to honor TWU picket line. These people did not honor that strike.
10. **United Airlines 1985:** Forced by mgmt to strike over B-Scale pay rates and the company attempt to break UAL ALPA.
11. **Eastern Airlines 1989:** Pilots honored IAM picket lines against Frank Lorenzo's asset-stripping of EAL to favor Continental.
12. **AFAP 1989:** Australian Federation of Air Pilots at 4 domestic airlines quit to protect retirement after disputing government wage control program. Some Americans, among others, happily filled in.
13. **Comair 2001:** Pilots struck over poor pay and work rules. They fought to end the second class treatment of all Small Jet pilots.

IMPORTANT NOTES: The CAL and EAL MECs determined that simply agreeing to work (or going to training) at these companies during the strike, not just flying a revenue trip, was enough to be a scab. They alone can determine the definition of "struck work" and we cannot second guess or change that determination now. The struck work definition was made BEFORE the strike, and anyone who violated it has only themselves to blame. "Ident" column gives employee number, LAST FOUR of their SSN, date of birth (dob), ATP number, date of hire (doh), or other means of identification. "Seniority Suit" means those Scabs at UAL who sued the union and the company to prevent the 570 from regaining their proper seniority position. "Fleet Qualified" (FQ, Flt Qual, etc.) are those hired off the street under a special pay plan and with promises of super-seniority to replace union pilots at United. ALPA - Some scabs are ALPA members because the '85 Back-to Work agreement forced the union not to "discriminate" against the back-stabbers who tried to steal their jobs and seniority. Some Scabs never resigned from the union and continue to pay dues. Some scabs did some penance and were forgiven by ALPA (but NOT forgotten) and re-admitted. Some simply fell through the cracks and got into the union after a merger, name change, etc (PAA). A date for an EAL Scab is his date of hire, no date means he's old Eastern. "???" by an EAL Scab means that the name appeared on several Scab lists during the strike but was absent from the final list. Other remarks show past Employers or other claims to infamy. MOST Scabs at CAL have a LETTER at the END of their employee number (but not all have this). Most employee numbers are listed (ie 0220B or 51225). The Continental "Preferential Hire" List and UAL "You Be The Judge" lists are on the last page.

Continental "Preferential Hire" List

The people listed below did not actually cross the picket line. Toward the end of the 1983 strike these folks called the company and asked to be put on the "Preferential Hire" list to come back to work. The strike ended a short time later and these folks never got the chance to cross the picket line (some ONLY because Lorenzo wanted to make a point and didn't call them right away, if at all). They asked to come back to work (strikers be damned!) when called. Some even sued over the issue. Make your own judgement...

United "You Be The Judge" List

The people listed below did not *technically* cross the picket line, but their history, motivations and actions need to be closely examined. Some F/As decided to cross the picket line even though the AFA had decided to honor the UAL pilots strike. They later became UAL pilots. The Seniority Suit (Lawsuit 3) participants (who are also ALPA members) were suing to prevent the restoration of the 570's rightful seniority. This allowed them to unjustly have seniority over the 570 for an additional 5 years. While the picket lines came down on June 14th 1985 (It started May 17th - see doh below), many of these individuals were ready to cross had it gone on longer. These actions have led most to believe that their intention was to SCAB, despite their protestations to the opposite. Make your own judgement...
